RE: Bancroft Neurohealth
BEN# 16038510
Form 471# 689221
Funding Request #'s 1887774, 1887873, 1887949
Decision Letter Date (attached) November 5, 2010

Our firm has been retained by Bancroft Neurohealth to help recover approved E-Rate funding for the hospital. They had previously been represented by the firm of "E-Rate Consulting" which has since been banned from participating in the program. We authored their 2010 application, which has been approved, and wish to reclaim any approved funding from prior years deemed viable.

The FRN's we wish to receive a waiver on are listed above. They were approved in the January 2010 time frame. Since we did not author the 2009 application, we were unaware of the approval of this funding. The 486 forms were not submitted until this summer when we inquired with the Ombudsman about the status of the hospital's funding. We understand that the forms were filed late and just wish to file BEAR's on the expenditures the hospital has already incurred.

Another obstacle we have incurred in getting invoice extensions and filing BEAR's is that the Verizon SPIN numbers need to be broken out by account. I am currently working with Verizon representatives to split the approved funding FRN's based on account numbers and services provided. We have this accomplished and are awaiting Invoice Extensions to file the BEAR's.

We respectfully submit our request to change the Service Start Date on the above FRN's to 7/1/2009 so we can file accurate BEAR's for the services provided and the expenses incurred. Thank you very much for your consideration. Supporting documentation has been attached.

Sincerely,

Kristy Rhodes
